The Bridal Gifts to the Princess of Wales

The desire of the public to examine the testimonies of affection and respect which have been sent to our young Princess, not only from most parts of Europe, but from almost every county in Great Britain, was gratified for the first time on the 15th in the exquisite new court of the South Kensington Museum. The presents were shown in the new North Court of the Museum, which was built for the exhibition of sculpture and monumental objects of Italian origin, especially such as were designed to be placed in open air. Here among the works of Brunelleschi, in the magnificent enamelled ware of Robbia, or the lustred majolicas of the great master Giorgio, are shown the bridal gifts in a kind of interior court, the walls of which are fluted to represent white satin, decorated with festoons and wreaths of bay leaves. In the centre of the court are two lofty Venetian banners, the noble bases of which are copies, in electrotype, of the standard in front of St. Mark's, Venice. From these hang silken pennons, most effectively decorated by Mr. Grace with the arms of the Prince and Princess. In this interior court the cases containing the presents have been so arranged by Capt. Fowke as to allow the greatest number of persons to see them at the same time, while the contents of the case themselves have been grouped by Mr. Redgrave, R. A., in the most effective color combinations we have ever seen accomplished. Between the angles of the cases are small groups of exotics and flowering ferns, and the railed in space in front of the cases allows visitors to enter and circulate freely round them in one continuous direction till all has been seen, and, of course, admired. Here are brought together, probably for the first time, all the bridal *cadeaux* which the young couple have received, from the simple little gifts of children up to the regal offerings made by our own Queen, by the Prince, himself, or by Continental Powers. Not a single gift has been omitted. Shawls, laces, dresses, cloaks—all are here, and all of them lent without restriction as to time; in fact, for as long a period as the public show the interest they exhibit by crowding to see them.

The gifts are divided into five classes—that is, jewelry and goldsmith's work, silver plate, porcelain, textile fabrics, and miscellaneous; but, except in the matter of jewelry, no actual division is attempted, and the plate and china, shawls, laces, and works of art, are, as we have said, grouped together with beautiful effect as to form and color. The jewelry makes a magnificent display. There are whole suits of gems, with bracelets, rings, brooches, lockets, and even tiaras, for almost every day in the week. The most magnificent of these are, of course, those given by the Prince himself, by her Majesty, and by the King of Denmark. The latter is a truly Royal gift—a gorgeous necklace of five rows of brilliants and pearls, terminating in the centre in an enamel fac simile of the famous Byzantine ornament—the much-revered cross of Dagmar, beautifully executed. Unquestionably, the most beautiful and the most tasteful specimen of jewelry is the *parure* presented by the Queen in the name of the late Prince Consort, and made from a design drawn by his Royal Highness himself. Of the same kind, in another part of the collection, will be found three drawings of noble groups of silver gilt plate, now making at Messrs. Hunt and Roskell's, but not yet ready for exhibition. These drawings represent gifts made by the Queen in the name of the Prince Consort, and executed from the Prince's own designs. The centre group will be a noble and most lofty tazza, the base surrounded with a large group of figures representing Edward I. presenting the first infant Prince of Wales to the Welsh chieftains. The two vases which are to accompany this Royal gift are of Etruscan form, so graceful in shape and ornamentation that even our greatest modellers might feel proud of their conception. But to return to the jewelry. In one case is shown a suite of Indian ornament, consisting of corsage, pair of bracelets, and armlet, entirely composed of pearls, emerald and diamonds, the gift of the Queen. Near it are a superb pearl and diamond necklace and earrings, the gift of the Prince to his bride, and one of the most costly of them all. The most costly, however, is the grand diadem of fine brilliants, also given by the Prince to the Princess the day before the marriage. The centre stone of the city necklace is valued at £5,000, and one can count in the diadem above it no less than eleven brilliants; almost, if not quite equal, to it in size and purity of water. Most of the presents given by the royal family are the work of Garrard and Co., except one exquisitely beautiful gold necklace, given by the Prince, the Etruscan form of which shows it to be the work of Mr. Phillips. The young Princes and Princesses of our royal family make a joint present of a noble broach of brilliants and sapphires; the Prince and Princess Louis of Hesse a bracelet of turquoises and brilliants; the Duchess of Cambridge a magnificent diamond and emerald brooch; the Princess Mary a diamond bracelet; and the Duke of Cambridge also a diamond and enamel bracelet. The Landgave William of Hesse and sisters gave a most beautiful *parure* of solid gold, of a fine old Danish design; and the Chamberlain Juel, another suite of the same richness; while the inhabitants of the two islands of Laaland and Falster also send a gold suite, of ancient Scandinavian design—such as the wives of the Vikings of old might have worn in state—consisting of a massive diadem, armlet, brooch, hairpin, button earings, and finger rings—all of massive gold and of quaint old Runic design.

OFFICE, MACDONALD & CO., BANKERS,

Yates Street.

The attention of shippers and passengers is particularly directed to the superior facilities the Royal Mail Steam Packet Company's Line affords for the speedy conveyance of Treasure, Goods and Passengers to and from England to British Columbia and Vancouver Island, in connection with the Pacific Mail Steamship Company's Vessels and the Panama Railroad.

The superiority of the accommodation and entertainment on board the Royal Mail Steamers, together with the time occupied on the passage between England and Aspinwall direct being so much shorter than by any other route, and the moderate rate of passage money, render this Company's steamers the CHEAPEST AND MOST EXPEDITIOUS MEANS OF TRANSIT, for passengers or for the forwarding of Goods and Treasure from Aspinwall to Europe.

Under an arrangement with the PACIFIC MAIL STEAMSHIP CO., Specie and Bullion can be conveyed to London and Havre in France.

Further information on the subject of Freight and Passage Money will be furnished by the undersigned.

THE DEBATE ON THE ALABAMA.

From files received by the last steamer we have details of debates in the House of Commons respecting the fitting out in England of vessels of war destined for the belligerents; or, to speak more particularly, for the Confederate States. From these it will be evident to any dispassionate mind that the series of charges brought by Mr. Seward, through his minister, Mr. Adams, against the British Government, of breach of their duty as a neutral power, are supported neither by facts nor by law. Nor can we under the circumstances consider that the neutrality of Britain has been throughout the affair which gave rise to the discussion between the two governments, even what Mr. Bright termed it in the debate, "a cold and unfriendly neutrality." That kind of neutrality, if it means anything in this case may be taken to signify doing for one of the belligerents, for instance, the Confederate States, what would be refused to the other. This would imply more sentiment than is generally to be met with in governments. Their character comes too much under the description applied to corporations—that of having neither a body to be kicked nor a soul to be saved—to induce one to look for any exhibition of feeling upon either one side or the other. All that can be asked of them is a reasonably strict compliance with their obligations under international law, and the impartial administration of their municipal law. To judge from the facts elicited in the discussion of the question in the House, Government have fulfilled their duty in both of these particulars. The charge made against the British Government was, that by suffering armed vessels, such as the Oreto and the Alabama, to be built in their territory, and to sail from the same, for the service of one of the belligerents, they violated both international and municipal law. The letters of the late Sir Geo. Cornewall Lewis, published under the signature of *Historicus*, have done much to place the principles of international law, in relation to the rights of neutrals, clearly before the public, and to remove many misconceptions previously existing in non-professional circles. The Solicitor-General, in reply to W. E. Forster, who opened the debate in a strong speech setting forth the American view of the question, coincides with and reiterates those views in a manner at once lucid and convincing. He proves from American authorities, that, even admitting the British Government had evidence intime that war vessels were fitting out in their ports for the Confederate States, still they were not bound by international law to interfere. The first quotation he makes is from instructions to collectors of customs, so far back as 1793, by Alexander Hamilton, Secretary to the Treasury. It reads as follows:—"The purchasing and exporting from the United States, by way of merchandize articles, commonly called contraband, being generally warlike instruments and stores, is free to all parties at war, and is not to be interfered with. If our citizens undertake to carry them to any of these parties they will be abandoned to the penalties which the laws of war authorize." And, again, the same idea is repeated by Mr. Webster, in 1842, when writing to Mr. Thompson, he says, 'It is not the practice of nations to undertake to prohibit their own subjects from trafficing in articles contraband of war. Such trade is carried on at the risk of those engaged in it, under the liabilities and penalties prescribed by the law of nations or particular treaties." And further, "that if American merchants, in the way of commerce, had sold munitions of war to Texas, the Government of the United States, nevertheless, were not bound to prevent it, and could not have prevented it, without a manifest departure from the principles of neutrality." The views of American statesmen just given are in accordance with the decisions and writings of their most eminent jurists, and agree with sound principles of international law. Under them no belligerent could find fault with Britain, as a neutral power, for permitting the fitting-out and sale of an armed vessel to an opposing belligerent. It would be a commercial transaction, perfectly allowable and perfectly fair. Great Britain and France having once recognized the South as belligerents, could make no distinction between them and the United States. England, however, has a municipal law, known as the Foreign Enlistment Act, which forbids the equipment in British territory of vessels of war for belligerents with whom she is at peace. Any right the American Government might have to complain must, therefore, be under this law, and not under the law of nations. And even this complaint could only assume the form of an appeal to England, as a friendly state, to enforce her own statute, according to her own principles of judicial administration—a duty which every Government is morally bound to perform, though responsible only to its own subjects for the neglect to do so. But, in asking the British Government to interpose and put the law in motion, as Mr. Adams undoubtedly did in the case of the Alabama, the application should be founded, as the Solicitor-General remarks, "on evidence, and not on suspicion; on fact, and not on presumption; on conclusive testimony, and not on the mere accusations of a foreign Minister or his agents. The Act must be not only interpreted, but executed according to law. It can be put in operation only upon such evidence as our Government would deem sufficient against any one." This evidence, in the case of the Oreto and Alabama, the same gentleman contends, was not furnished the Government. According to him, Mr. Adams informed Earl Russel, on the 23d of June last year, of the building of the latter vessel for the United States. A Commission of the Customs was ordered to inquire into the case, who reported, that although it was evident she was built for some foreign government for warlike purposes, yet they were unable to find out her destination. The Government, having no evidence to prove a breach of the Act, communicated on the 4th of July the fact to Mr. Adams, intimating they would be willing to hear from him. That gentleman should have immediately sent in his proofs but instead of that sent in nothing for two weeks, and did not complete his evidence till the 24th. The letter containing the depositions did not reach the Government till the 26th, which was Saturday. On Monday it was submitted to the law officers of the Crown, as to whether or not it would authorize the detention of the vessel. They gave their opinion in the affirmative the next day, and a telegraph was immediately sent to stop the vessel, but too late as she had just gone that morning without a clearance. Such being the facts and we see no reason to doubt them, it is impossible to say how the Government can be blamed in the matter. They simply did their duty without unnecessary delay and without bias one way or the other. And such will be the opinion of every candid American who views the matter unaffected by strong national sympathy.

HIPPOZANEZAPPRIVOISERY. — After several hours of close confinement in our editorial study, we succeeded in mastering the name affixed by Professor Belew to his horse-taming art, which so appalled us on Wednesday evening. The Professor, according to announcement, delivered a free lecture yesterday in front of Williams' livery stables on the science of horsemanship, to a large audience, he explained and contrasted his theory of the management of the horse with Rarey's, and at the conclusion of the lecture invited people to enroll their names as scholars, and upon payment of a sum of $5 each he would initiate them in his system of treatment, by practical demonstration upon any wild animal produced. He, moreover, made some very fair offers for the protection of his pupils from fraud or deceit, and about 20 people forward and put down their names. The exhibition took place with closed doors, but as no wild animal was at hand, the Professor was compelled to take the first that offered, which was too docile for the purpose. However, "a fit subject or two" was promised for another exhibition to-day, and as we do not wish to anticipate the performance by giving a detailed account of what took place yesterday, we will merely observed, that Professor Belew is so perfectly master of his art that the wilder the animal the better he is pleased, and we should advise all who take an interest in such matters not to forget to be there.

COWICHAN.— From the master of the schooner Louise, who left Cowichan on Tuesday, we learn that the Forward arrived at Cowichan Bay on Sunday night, and the Cameleon with the launches on the following day. Both ships immediately proceeded up Chemainos Pass. Everything was perfectly quiet at Cowichan. Heavy rain had fallen, doing a vast deal of good to the crops and fruit trees of the settlers. The Indians did not like the appearance of the Cameleon, they entertain great dread of our war ships since the recent proceedings.

FROM NANAIMO.—H.M.S. Devastation returned yesterday morning from Nanaimo with Commodore Spencer on board, and Mr. D. B. Ring and Mr. C. S. Nicol, as passengers. While at Nanaimo Mr. Ring delivered a lecture in the Literary Institute, for the gratification and instruction of his constituents. He chose for his subject "Historical Hints," of which the people of Victoria entertain so many pleasing and favorable recollections.

ARRIVED.—The barks Architect and Adelaide Cooper, from San Francisco, entered the harbor yesterday afternoon within a few minutes of one another. The Adelaide Cooper was detained by baffling winds and thick weather outside the Straits. Both ships will commence discharging this morning at the H. B. Co.'s wharf.

☞ A meeting will be held at the theatre at half-past seven o'clock this evening, for the purpose of organizing a branch of the British and Foreign Bible Society. The chair will be occupied by his Excellency, and the Rev. Lachlin Taylor will deliver an address.

GOLD ESCORT.—Thomas Elwyn, Esq., late Assistant Gold Commissioner, has been named second in command of the Escort. Arrangements for a start will not be completed before next week.

FOR THE FRASER RIVER.—The steamer Caledonia sailed yesterday for New Westminster and Port Douglas, taking over 20 passengers and some freight.

☞ The Eliza Anderson sailed yesterday evening for ports on the Sound.

The "British Columbian" and the Gold Escort.

VICTORIA, V. I.,
Wharf Street, June 4, 1863.

ED. COLONIST—Dear Sir.—The editor of the *British Columbian* is going stark mad because His Excellency Gov. Douglas has dared to establish an escort without first consulting the wisdom of British Columbia, concentrated in his (the editor's) brains.

In the *British Columbian* of the 30th ult., that crazy man who would be the mouthpiece of British Columbia, uses the following language :—"He (meaning the Governor) has not received one request from British Columbia to start the proposed escort."

Now, sir, in refutation of so presumptuous an assertion, you will please give publicity to the enclosed petition from the inhabitants of Lillooet. The petition was given me last winter to obtain more signatures, and present the same to His Excellency Governor Douglas. But unavoidable causes have so far prevented me from carrying out the wishes of my up-country friends and now, I am glad to say, the necessity does no longer exist.

Respectfully yours,
WHARF STREET.

The following is the petition alluded to :—

To His Excellency James Douglas, Governor of British Columbia.

We, the undersigned inhabitants of British Columbia, feeling assured that your Excellency has the practical good and true progress of the colony at heart, petition for the following action of your Excellency's Government.

The season being closed and the Miners, Packers and Merchants in winter quarters, your Petitioners consider the present time to offer advantages for the organization of a responsible Mail and Treasure Escort which shall connect the mines with Victoria and intermediate places.

Looking back at the horrible murders committed during the past season we consider it a moral duty as well as sound policy to establish a responsible conveyance for Treasure, such an organization by abolishing the incentive offered to assassins would guarantee security not only to the trader but to the ordinary traveller.

The Gold Escort established by your Excellency in 1861 is proof of your holding the same views; as however no guarantee was then offered for treasure remitted the same failed of success. We would therefore humbly suggest the re-establishment of the Escort, a guarantee being given for all deposit passing through its hands; this object to be effected, either by subsidizing with men, or money a responsible house in Victoria, or in such other way as your Excellency may think fit, convinced that such an institution will raise the moral tone of the community, and in its effects fully compensate for the outlay of revenue.

And your Petitioners will ever pray, etc.

Mildew on Gooseberries.

EDITOR BRITISH COLONIST—SIR :— This disease is caused through some sudden check to the tree, either by the roots getting into bad soil or (which is invariably the cause), through cold nights after hot sunny days. Now under the best cultivation the fruit would be subject to the disease from the latter cause unless grown under glass or protected at night from the late cold wintry blasts. The mildew is easily eradicated by sprinkling a little flower of sulphur over the fruit and occasionally syringing with lukewarm water.

Our Sidewalks.

EDITOR BRITISH COLONIST.— *Sir* : The nails in some of our city sidewalks are getting to be really a nusiance to promenaders. Ladies dresses and gentlemen's boots and shoes are daily suffering, and have to wear the marks of the projecting nails now standing out in bold relief from too many of our sidewalks. Cannot something be done to mitigate the evil? The nails continue to work upwards as the dry weather holds out and the sidewalks are used, and therefore the evil is constantly on the increase. For the sake of new boots and dresses—for the sake of order and propriety—for the credit and well being of our city, and for the sake of preserving the good temper of our population, particularly the ladies, it is to be hoped that our City Fathers will find some means of alleviating the miseries caused by "sidewalk thorns," and thus inaugurate a happier era for promenaders in Victoria.

Trusting the subject may meet with the consideration it deserves in municipal circles, I shall patiently await the time for better walking.

INSPECTOR.

LETTER FROM LONDON.

(FROM OUR SPECIAL CORRESPONDENT.)

LONDON, April 18, 1863.

We never had better weather in England at this season of the year than we have now. The sun shines brightly, and the temperature is as high as it usually is towards the end of May. Vegetation is rapidly coming forward ; the meadows never looked better, nor did the fruit trees ever show the same promise of abundance as now. We ought to be very thankful, for with the exception of about a fortnight, we have this spring escaped the east winds which are so destructive to early blossoms and impaired lungs.

GENERAL PROSPECTS—DISTRESSED OPERATIVES—COTTON—AND IMMIGRATION.

On the whole, the English people have abundant grounds for thankfulness and joy. With the one exception of the prolonged Lancashire distress there is little to interfere with their equanimity. The American war still lasts, and casts a dark shadow over our cotton districts. Indeed, it is now beginning to be a serious question, whether or not this source of income must not in the main be abandoned. At any rate it seems to be taken for granted by most of those who give serious attention to the subject, that it can never again in England be what it has been. We have waited now for about 18 months in the hope that the American war would be brought to an end, or that the raw material might be sent to England from India or other countries, without much trouble on the part of our cotton lords, to supply the place left vacant by the once United States. There is now little hope of their expectations being realized,and the great question for us at present is what shall we do with our hundred thousand operatives on the brink of absolute pauperism? There is now only sufficient funds, at the present ratio of expenditure, to supply their imperative wants till the middle of June. Charitable sources very soon dry up. Indeed, it is not to be supposed that even the wealthy and generously-disposed, should continue for any length of time to pour in their offerings into the charity treasary. All classes, not only in England but in all the British colonies, have done nobly ; but, alas! when there is no hope of the operatives being permanently relieved, they naturally begin to tire of giving.

The majority of our writers and philanthropists strongly recommend emigration as the only means of bettering the condition of the cotton hands. The distinguished "S. G. O." and the Rev. Charles Kingsley have written powerful letters to the *Times* on the subject. The mill-owners of Lancashire, as a body, are strongly opposed to the trial of emigration, from motives savoring very much of selfishness. But it may be asked, in what branch of industry have we examples of pure benevolence? On the whole question, however, it is now perfectly evident that the cotton market was glutted at the time the American war broke out, and even if the sword had not been unsheathed at the time it was on the other side of the Atlantic, the mills must sooner or later have been stopped, for the demand for the manufactured article was not commensurate with its production.

In spite of the cotton lords, emigration is now popular with us, and not a few are being shipped to the various colonies most likely to furnish those supplies and prospects of happiness denied in Lancashire. Some of the colonies have sent large sums of money to this country to assist in fitting out and paying the passages of a few of the distressed likely to do credit to the mother country, and prove a boon to the land of their adoption.

In connection with the distress of a large class of our operatives I may here ment on that a very laudable scheme has been successfully tried in Glasgow and is now being introduced to the London working classes. I refer to what you will find noticed in the papers under the heading of cheap dining rooms for the working classes. For the small sum of 4½d. a working man in Glasgow can have soup, meat, potatoes and bread in such quantities as to make a very substantial meal. Tea and coffee are also provided at 1d. per cup. There is no beer however and I quite agree with many in thinking this to be a defect. Certain I am that the plan will not succeed in London without the adjunct of beer. By long habit we have become accustomed to this beverage and tea and coffee will not be accepted as substitutes. There is also a movement in Scotland for improved dwellings to alleviate the domestic condition of the working classes. I ought here to state that the cheap dinners pay, and pay well. The enterprise is a commercial one.

THE PREMIER IN SCOTLAND.

While speaking of Scotland I am reminded that that country has been favored by a visit which lasted exactly a week, of the Premier of England. Lord Palmerston was elected Lord Rector of Glasgow University. He spent about the half his Easter holidays in talking to all and sundry in that city of great commercial enterprise, as well as in the modern Athens, and the places adjacent. His lordship was six days in Scotland, and during that period delivered twelve speeches. Those who know the Premier will be prepared to admit, that if they had not very much in them, they were at all events remarkably clever. He was elected a member of the Garter Club and had the freedom of the city of Edinburgh as well as Glasgow conferred upon him. Indeed this trip from first to last was one continued ovation. The Scotch gave him a most hearty welcome, and to judge from his speeches the noble lord thoroughly enjoyed himself.

GRAND VOLUNTEER REVIEW.

On Easter Monday, there was this year as formerly, a grand Volunteer Review at Brighton. The whole proceedings passed off in a most satisfactory manner. The volunteers obtained great praise for the very superior manner in which they marched and fought. This force is now according to eminent judges in a most efficient state of training.

THE CZAR AND THE POLES.

Speaking of fighting reminds me that the Poles are still fighting in earnest. Since I last wrote nothing of great note has occurred except perhaps that Alexander of Russia has issued an ukase declaring that he will freely pardon the insurgents if they will lay down their arms by the first of May. This overture on the part of the Czar shows that the insurrection is considered by his Imperial Majesty to be a serious affair, and perhaps is more an indication on his part of weakness than strength. The mere offer of pardon has been indignantly refused and has fanned the flame of insurrection. The sympathy which the Poles are receiving in England is being expressed as warmly as ever. New Committees are in full working order and the House of Commons has been lavish in its sympathy and encouragement to the insurgents.

THE GREEK THRONE.

It is now well nigh settled that Prince William of Denmark will be raised to the Greek throne. Should the conditions be agreed to there seems little doubt but he will accept the post. There are first the formal abdication of King Otho, and secondly that a suitable allowance be made to the Prince. It is also stated that the Danish king will only give his consent to the elevation of Prince William on condition that England guarantees the present order of succession to the Danish previnces, and that Duke Ernst of Saxe-Coburg Gotho be made regent during the minority of William. This of course is with the view of putting a ban upon the pretensions of Prussia. When will the Schleswig-Holstein question be settled?

FOUL MURDER.

There has been a horrible murder perpetrated it is supposed by a foreigner, in St. Giles's. A man and a young woman were admitted to a house of bad fame on the morning of the 10th. They wanted a private room for two hours, and were provided with it. Some hours afterwards it was found that the woman was left in the room by her paramour, with her throat horribly cut and surrounded by gore. The man has escaped detection. A reward of £100 has been offered for his recovery. While I write it is hinted that some clue to his whereabouts has been obtained. He is supposed to be in Epping Forest. While human beings remain on earth, crimes will abound.

DR. COLENSO AND THE BISHOP OF MANCHESTER.

The religious controversy set a going by the publication of Dr. Colenso's book on the Pentateuch continues with unabated vigor. The bishops individually and as a body have remonstrated with him, entreated him to resign, and all the rest of it, but he shrewdly sticks to his bishopric. The zeal of some of the bishops has driven them far ahead of their knowledge. The Bishop of Manchester, for instance, says that if one line of the bible can be shown to be false the whole fabric of salvation falls to the ground. The Bishop of Natal accepts the challenge, and quotes a verse from Leviticus in which it is said, that the hare chews its cud, and then a quotation from Prof. Owen flatly contradicting the statement. The hare has not two stomachs, and does not chew its cud.

DEATH OF SIR GEO. CORNWALL LEWIS.

Your readers will not be more surprised than we have been when I tell them that Sir George Cornewall Lewis, the Secretary of State for War, died suddenly last week after only three days' illness. The news came like a shock upon this country. His place will not be easily filled up, for he was considered the most learned member of the House of Commons, and one whose judgment had great weight. In the midst of life we are verily in death.

MR GLADSTONE'S BUDGET.

The Chancellor of the Exchequer made his annual financial statement on Thursday last, and one in every respect so satisfactory it has not been the lot of any chancellor of the exchequer to give for many a day. He proposes to reduce the income tax 2d and the duty on tea 5d. He gives special relief to those on whom the main burdens of income tax were felt to be most oppressive. The following brief abstract of the budget will not be without interest to your readers :—

THE BUDGET.

On Thursday the House of Commons was crowded at an early hour by persons desirous of hearing Mr. Gladstone make his financial statement :—

The Chancellor of the Exchequer commenced with an allusion to the enormous increase in the expenditure of late years ; he said his present budget was the reply of the Government to the resolution of last session, that the expenditure should be reduced. The estimated expenditure for the present year was £67,749,000, while the income without deduction is estimated at £71,490,000, leaving a surplus of £3,741,000. He then proceeded to show how this surplus would be increased by the rectification of anomalies. First, he proposed to equalize the duties on chicory and coffee ; then he proposed to charge clubs where spirits were sold, with the same license as taverns or hotels, next the beer licenses would be equalized ; carriers and others whose conveyances did not travel at the rate of four miles an hour would pay half the duty now paid by stage-coach proprietors ; the exemption of railway companies as to mileage duties would be destroyed, and their present rate of charge of 5 per cent. with exemptions would be commuted to 3½ per cent. without exemptions ; legacy duty would be payable in Ireland as in England ; and finally, charities and corporations would pay taxes on all their incomes, but this extension did not apply to the buildings or sites of hospitals, colleges, or similar institutions. From these changes he estimated there would arise a small increase of revenue, bringing the total up to £3,874,000. He then showed how he proposed to dispose of this. First, the penny charges on goods inwards would be abolished, together with the 1s. 6d. charge on bills of lading outwards. This would cause a loss of £143,000. Then the mode of levying the income-tax would be changed. Beginning to be chargeable at £100, incomes would not come under the full sweep of the tax until they reached £200. The £150 distinction would thus be swept away. The rate of payments would be the same on all incomes; but persons whose incomes were under £200 would be allowed to deduct £60 from it for taxable purposes. Thus a person with an income of £160 would pay on £100. Discussing the question as to whether the tea or sugar duties should be reduced, he gave the preference to the tea duties as giving the greatest relief to the public, together with the greater probability of the recouping of the revenue. He therefore proposed to reduce the tea duties to 1s. a pound,—the reduction to take effect immediately after the resolution was passed by the House. He intended to move the resolution on Thursday next. For the present he should only ask the House to grant the lower tea duties till the 1st of August, 1863, his object being that before that time the question of the tea and sugar duties together should be considered. He wished it to be understood, however, that the Government regarded the fixing the duty on tea at 1s. as being final. The last reduction he proposed was on the income tax, which is to be in future 7d instead of 9d. Summarising the losses which would arise in the current year from these deductions, he put them as follows :—

On the abolition of small charges .	£143,000
On the change as to minor incomes,	300,000
On the reduction of the tea duty .	1,350,000
On the reduction of the income-tax,	1,550,000
Making a total of . . .	£3,343,000

The surplus he had stated at £3,874,000 ; and, deducting from this the reductions, £3,343,000, a balance was left of income over expenditure of £531,000, which sum the Government hoped the House would not allow to be wrenched from them. The right hon. gentleman then went at some length and with great lucidity into a review of the financial legislation of the past four years, pointing out that it had been every way advantageous to the country. He sat down at twenty minutes to eight o'clock, having spoken for three hours. Mr. White followed, approving of the proposal as to tea ; and Lord Robert Montagu, Mr. Crawford, Mr. Vance, Mr. Scully, Mr. Powell, Col. Barttelot, Sir F. Crossley, Mr. Taylor, Sir H. Willoughby, and others spoke ; and finally the resolution as to the chicory duties was agreed to.

THE POLISH INSURRECTION.

The following were the latest telegrams received :

CRACOW, April 17.

Zawichost is occupied by 1,500 insurgents.

The Deputy Bentkowski has been released on bail.

On Sunday next a banquet will take place in honour of Mr. Hennessy, M. P., who has arrived in Cracow.

WILNA, April 15.

Since the publication of the amnesty the movements of the insurgents have become more active.

During the Easter holidays several engagements have taken place in the vicinity of Wilna.

Russian reinforcements continue to arrive.

The *Times*, in a leader, says—It is only since the 18th of March, when the revolt seemed for the moment crushed, that it has grown to formidable proportions. It now extends through the whole breadth of Poland North and South. It encircles Warsaw, the seat and centre of the Russian Government, and extends along the frontier of Prussian Poland, Northwards into Courland, and the Polish portion of Lwonia, thus reaching the coast of the Baltic and the shores of the Gulf of Riga. Of the whole kingdom of Poland it may be said that the soil is on fire. The flame trodden out by the four Russian corps that enveloped Langiewicz and his band almost under the walls of Cracow had burst forth on so many other points that the Russian troops have now to repeat the progress against a host of new leaders on a line of country 600 miles long. Thus rapidly has the revolt expanded into a guerilla that seems to combine peasants, nobles, and the inhabitants of the towns that represent our middle class.

THE ITALIAN PARLIAMENT.

TURIN, April 17 (Evening).—To-day, in the Senate, the committee appointed to investigate the affair of the search made in the house of Senator Prince Saint Elia at Palermo, made its report, stating that the privileges of the Senate had not been violated.

A debate then ensued upon the revenue budget. Signor Minghetti stated that an increase had taken place in the revenues arising from several taxes. The sale of public landed property would be, he said, effected in a few years, and the unification of the taxes would be very soon accomplished.

In the Chamber of Deputies to-day the Minister of the Interior, in reply to a question on the state of affairs in Sicily, announced the measures he proposed to adopt for re-establishing public safety and confidence in the island.

The *Courrier* of Lyons states that in one of the private lunatic asylums in the neighborhood of that city, there are not less than forty persons confined, laboring under mental aberration caused by spiritualism.

WARLIKE PREPARTIONS IN RUSSIA.

BERLIN, April 9.—The *Nordhdeutsche Zeitung* of to-day publishes a telegram from Paris, announcing that on Monday last intelligence was received that the entire Russian army is to be placed on a war footing. The same telegram announces that Baron de Budberg, the Russian ambassador in Paris, was informed by his Government to-day, that the increase of the army had become necessary on account of former reductions, and that Cronstadt has also been placed in a state of defence. Neither of these measures, however, has been undertaken with any aggressive tendency.

Australia.

CONFLICT BETWEEN THE AUSTRALIAN COLONIES AND THE MOTHER COUNTRY.

MELBOURNE, February 24.

In the Legislative Assembly this day, Mr. Mollison called attention to intelligence received by the last mail, that a recurrence to transportation was recommended, and asked the Government to consider the propriety of moving the Governments of the sister colonies to address to the Duke of Newcastle a united remonstrance against founding, on any part of the Australian continent penal colonies. The House was unanimous, and expressed an opinion most determined for resistance.

LOSS OF H. M. S. ORPHEUS.—The Melbourne *Argus* gives the following list of officers and men who were drowned upon this lamentable occasion : Commodore Burnett, Commodore Burton, Lieuts. Budge, Jekyl, and Hill ; Chaplain Hayleywood, Master Strong, Engineers Stephens, Vickery, Miller, Adamson, Adams, Gesage ; Surgeon Clarkson, Paymasters Gilham and Johnson ; Midshipmen Fielding, Mallack, Broughton, and Verner ; three petty officers, 95 seamen, 26 boys, and 45 marines ; total, 199. The news reached Melbourne by H. M. S. Miranda.

HOLLOWAYS OINTMENT AND PILLS.—The treatment pursued by Professor Holloway for the cure of wounds and ulcers is the most simple and certain in its effects, it has been tried by hundreds of thousands and never been known to fail; by the administration of an internal remedy (the Pills,) he drives disease out, and by the administration of an external remedy (the Ointment), he heals wounds, ulcers, and the worst of external disorders. By this celebrated treatment, also, bad legs and ulcers are cured, even when they have been upwards of twenty years standing

MEDICAL

Dr. Baker's Pain Panacea!

IS composed entirely of healing gums, and vegetable oils and herbs. It is perfectly safe for the most delicate to use. I can most sincerely say that I have never known any, however delicate to be injured by it in the least. I will continue to ask the afflicted, who have not used it, to try it for the following diseases. If they are not satisfied with its healing properties, the money will be cheerfully refunded by the Agent where the medicine is for sale.

If you have Pain in the Stomach or Bowels, try a dose of Pain Panacea internally, bathe externally over the parts affected, and you will at once restore the proper action and relieve the pain.

If you have a Bruise or Wound, bathe it well with the Pain Panacea four times a day. It will relieve the pain, and take out all the poison, and heal the wound in a short time.

If you are suffering from Neuralgia or Rheumatic Pains, apply the Panacea freely, and take a dose of it internally, morning, noon and night; it will not only cure the pain, but will remove the cause of the disease.

If you have the Dispepsia, and your food distresses your stomach after eating, take a dose of Pain Panacea after each meal.

If you have a Cankered or Sore Mouth or Throat apply the Pain Panacea to the affected parts, and gargle the mouth or throat three or four times a day.

If you have the Diarrhœ, or a relaxed state of the bowels, take a few doses of Pain Panacea and they will soon be restored. If you have a painful swelling bathe the parts freely and you will soon relieve the pain, and the swelling will be reduced. If you have a severe toothache, apply the Pain Panacea on a piece of cotton, and bathe the gum at the same time; it will stop the pain instantly.

If you have a pain in the Side, Breast, Back, or Kidneys, bathe the parts affected morning and night; at the same time take a dose of the Panacea internally.

If a Mother has a Caked Breast, apply the Pain Panacea as hot as can be borne.

If you feel chilly or cold, as though you were going to have a fever, take a dose of Panacea.

If you have a wound, cut, or galls on your horse, apply the Pain Panacea; it will take out all the inflammation, and heal the sore in a short time. Sold by all the principal druggists, and by

BRITISH COLONIST.

Odds and Oddities.

The agents of two rival iron safe manufacturers were recently presenting the claims of their respective articles. One was a Yankee—the other wasn't. He that wasn't told his story. A game cock had been shut up in one of his safes, and then it was exposed three days to the most intense heat. When the door was opened, the cock stalked forth, flapped his wings and crowed loudly, as if nothing had happened. It was now the Yankee's turn. A cock had also been shut up in one of his safes with a pound of fresh butter, and the safe was submitted to the trial of a tremendous heat for more than a week. The legs of the safe were melted off, and the door itself so far fused as to require the use of a cold chisel to get it open. When it was opened, the cock was found frozen dead, and the butter so solid that a man who knocked off a piece of it with a hammer had his eye put out by a frozen butter splinter.

ABSENT-MINDED.—There is a woman "out west" who is so absent-minded, that one washing day she carefully laid the mop in the cradle, and washed the floor with her baby; and did not discover the mistake until she attempted to *wring it out!*

When we see God's hand in any passing trouble, the pain is not gone, but the bitterness is; for there is positively something allied to pleasure in feeling his hand near us, even though it hold a rod.

PIG-LEAD.—They are getting up a new style of hogs out West. The inventor thinks that by giving them pewter with their corn, he can raise pig-lead from them. Time must determine.

SERVICE.—Good service is prompt service. It ceases to be a favor, when he upon whom the service is conferred has lost in patience and hope deferred what he might have bestowed in love and gratitude.

Somebody, who writes more truthfully than poetically, says:—"An angel without money is not thought so much of now-a-days as a devil with a bag full of guineas."

He who brings ridicule to bear against truth finds in his hand a blade without a hilt—more likely to cut himself than anybody else.

"Life would be a desert without you," said a doating husband.—"So it would without you, dear," the wife retorted; "like a *dessert* at dinner—the best part of it."

ALBION IRON WORKS
Chatham and Discovery Streets.

Near Dickson, Campbell & Co., New Warehouse Store street.

VICTORIA, V.I.,

JOSEPH SPRATT, PROPRIETOR.

In order to meet the wants of Vancouver Island, British Columbia, and Puget Sound, the Proprietor of the ALBION IRON WORKS has been induced to expend a large sum of money in erecting a

MACHINE SHOP
—AND—
Foundry,

On such improved principles as to enable him to do work with unusual despatch, in the best manner, and at most reasonable rates.

There is no similar establishment on the Pacific Coast, that is larger, or better prepared to execute every kind of Machinery, Engines, Blacksmithing, and Iron and Brass Castings. No one need go to San Francisco to fill orders, as the work can be executed at the ALBION IRON WORKS as well, at as low rates, and with as much despatch.

In the Machine Shop there are Bolt-cutting, Planing, and heavy turning Machines.

In the BLACKSMITH SHOP there is a powerful steam blast which enables the Proprietor to do Heavy Blacksmithing.

The attention of persons, and particularly miners, about purchasing Steam Engines, is directed to the Improved Portable Engines, constructed at the Albion Iron Works. These Engines can be successfully worked for Threshing, Hoisting, Pumping, Pile-driving, or for any other use where small power is required. They are simple in construction, have an Economical Boiler, and are considered the best portable engines in use. They would be invaluable auxilaries to the Miners for Hoisting and Pumping.

All orders for high and low pressure Steam Engines, Grist and Quartz Mills, Pumping Machinery, Blacksmithing, Brass and Iron Castings, and everything done at a Machine Shop and Foundry, can be filled at the Albion Iron Works.

Particular attention paid to Steamboat Work and general repairs.

Terms: Cash and Low Prices.

ROUTES TO CARIBOO.

HURRAH For Cariboo!!

DOUGLAS AND LILLOOET ROUTE IS BY FAR THE Shortest and Best BOTH FOR MEN AND ANIMALS TO THE CARIBOO MINES,

As will be seen at once by the following TABLE of DISTANCES, which have been CHAINED by Government, NOT GUESSED AT, as on the Lytton Mule Trail.

FROM DOUGLAS TO HANCOCK'S	4 Miles.
Thence to Perry's	6 "
" Hensley's	1 "
" Chapais'	3 "

From Anderson and Seaton Lakes to Port Seaton—Fare, $1 on each Lake	34 "
Thence to Lillooet Flat	3½ "
Whole Distance from Douglas to Lillooet by Land over a Good Wagon Road	55½ "

☞ Remember that Lillooet is 45 Miles above Lytton. ☜

On the Lillooet Lake

Goulding's New and Splendid Steamer

"Prince of Wales"

100 TONS BURTHEN,

Will Make Two Trips per Day,

And is capable of taking on board

The Heaviest Wagons OR AN ENTIRE MULE TRAIN!

On Seaton Lake

Taylor & Co. are just Completing a A SIDE-WHEEL STEAMER, THE

Prince Alfred

110 FEET IN LENGTH,

Capable of Transporting 200 tons of Freight per Day.

ABOVE LILLOOET, the Distances are as follows

From Lillooet to Fountain	8 Miles.
" Fountain to Pavillion	13 "
" Pavillion to Cut Off Valley	14 "
" Cut Off to Clinton	12 "
Total	47 Miles.

Making the Distance from Lillooet to the Junction of the LILLOOET-ALEXANDRIA WAGON ROAD WITH THE LYTTON CITY MULE TRAIL

Only 47 Miles,

While the same point is 92 miles from Lytton, and only 20 miles of the Lytton-Alexandria Wagon Road are Finished in any one place!

From Clinton to Alexandria

Wright's Wagon Road

Will be Completed by the 1st of June, WHEN A Regular Line of Stages WILL RUN FROM DOUGLAS TO ALEXANDRIA Connecting there with the New Steamer "ENTERPRISE," which will make

DAILY TRIPS

From thence to Quesnelle River, Landing Freight and Passengers within **50 Miles of Lightning and Van Winkle Creeks!**

☞ We call upon travellers who have Wagons or Animals, especially to

Avoid the Lytton Route!

As the Wagon Road is Unfinished, and will not be passable before the 1st of August.

☞ Do not be deceived by the representations of interested parties who will give you all sorts of false information regarding the Lytton Route, and the various distances, which have never yet been measured.

As a Proof of the Existence of **Good Hotels on the Wagon Road!**

Above Lillooet, we give the following list of Houses and their distances from Lillooet.

ROUTES TO CARIBOO.

Every Person Should Know

THAT THE Shortest, Best and Cheapest ROUTE TO THE CARIBOO MINES IS VIA THE YALE AND LYTTON

WAGON ROAD!

The chained distances on the Yale and Lytton Road are as follows:

From Yale to Boston Bar	25 Miles
" Boston Bar to Lytton	32½ "
" Lytton to McLean's	47½ "
" McLean's to the Junction of the Wagon Roads	19 "
Distance from Yale to Junction.	124 Miles

COMPARE THE ABOVE

With the following distances set down by Lillooet Shippers:

From Douglas to Lillooet	110 Miles
" Lillooet to Junction	47 "
Distance from Douglas to Junction	157 Miles

The Junction

Is the point at which the Wagon Roads intersect each other, and where the Cariboo-bound traveller by the Yale-Lytton and Douglas-Lillooet routes MUST meet. It will, therefore, be seen by the above figures that the traveller by YALE and LYTTON has

THIRTY-THREE MILES LESS TRAVEL

Than if he went by the Douglas-Lillooet Route.

☞ **Remember that on this Route there are NO PORTAGES where Goods or Animals may be detained.**

Messrs. DUHIG, LANE, BLACK, and other Carriers of Merchandise, advertise to

Carry Freight from Yale to Lytton $20 Per Ton Less

Than is or will be charged on the Douglas-Lillooet Route.

THE NEW AND SPLENDID STEAMER

"Reliance"

Connects with the Victoria Steamer

"Enterprise"

And conveys her Freight and Passengers to Yale at greatly reduced Rates.

Shippers

Desirous of getting Freight through to Cariboo this season are advised to

Shun the Douglas-Lillooet Route!!

☞ And are also referred to the testimony adduced in the CRANFORD CASE, wherein witnesses have stated upon oath that 15, 20, or even 30 Days is a reasonable time to convey Freight from Douglas to Lillooet.

Five Days only are Required

To carry Goods from Yale to Lytton, and

Shippers are Assured

That if Freight is carried from Douglas to Lillooet for Two Cents per lb.,

CARRIERS ARE PREPARED TO FREIGHT FROM YALE TO LYTTON

With Safety and Despatch, for

One Cent Per Lb.!

All those who allow themselves to be crammed by Douglasites this year need expect no sympathy from the public if they get broke in trying to get goods through that route.

☞ Remember the Cranford affair, and steer clear of extortion and delays.

Travel the Yale and Lytton Wagon Road to the Cariboo Mines.

☞ New and Commodious Hotels have been erected at convenient distances along the entire length of the Route, where First Class Accommodations for both man and beast are bestowed at moderate rates.

☞ FOR CHEAPNESS, DESPATCH, EASE and SECURITY choose the Yale and Lytton Route in preference to all others in British Columbia.

Worcestershire Sauce.

PRONOUNCED BY CONNOISSEURS TO BE THE Only Good Sauce, and applicable to EVERY VARIETY OF DISH.

EXTRACT of a LETTER from a MEDICAL GENTLEMAN at Madras, To his Brother at WORCESTER, May, 1851

"Tell LEA & PERRINS that their Sauce is highly esteemed in India, and is, in my opinion, the most palatable, as well as the most wholesome Sauce that is made."

Caution.
Lea & Perrins

Beg to caution the public against spurious imitations of their celebrated

WORCESTERSHIRE SAUCE.

L. & P. having discovered that several of the Foreign Markets have been supplied with SPURIOUS IMITATIONS, the labels closely resemble those of the genuine Sauce, and in one or more instances the names of L. & P. FORGED.

L. & P. will proceed against any one who may manufacture or vend such imitations and have instructed their correspondents in the various parts of the world to advise them of any infringement of their rights.

Ask for Lea and Perrins' Sauce.

GOOD NEWS FOR EVERY ONE

KNOWLEDGE IS POWER. IF YOU DEsire to preserve your health, a knowledge of the laws for its preservation is essential. If you are ill, and have sought in vain for renewed health, what is the reason? Simply this, a want information on the subject. The civilisation of the present day renders some aid to nature in the preservation and restoration of health indispensably necessary; and the only question is, whence is the required help to be obtained? Undoubtedly, by using

Kaye's Worsdell's Vegetable Restorative Pills.

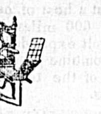

For the last thirty years the truth has been gaining ground that to purify the blood is the simplest and most natural way of restoring and maintaining health; and the great and distinguishing feature of these celebrated pills is, that they speedily eradicate all disease from the body, *by* purifying the blood; thus good health is at once secured, and all may ensure a sound constitution and complete freedom from pain and disease.

The pamphlet enclosed with each box of the pills gives most interesting particulars of many hundreds of cases of cure, together with instructions for the use of the medicine.

HEALTH FOR A SHILLING.
Holloway's Pills.

Headaches, Bile, Loss of Appetite, and Lowness of Spirits.

These Pills require no interruption of business or pleasure; they act mildly on the bowels, strengthen the stomach, and promote a healthy action of the liver, whereby they purify the blood, cleanse the skin, brace the nerves, and invigorate the whole system. They effect a truly wonderful change in debilitated constitutions, as they create a healthy appetite correct indigestion, remove bile, giddiness, headaches, and palpitation of the heart.

Weakness and Debility.

of debility, languor, and nervousness generated by excess of any kind, whether mental or physical, the effect of these Pills is in the highest degree bracing, renovating and restorative. They drive from the system the morbid cause of disease; re-establish the digestion, regulate all the secretions, brace the nervous system, raise the patient's spirits, and bring back the frame to its pristine health and vigor. They increase the appetite, while they secure perfect digestion to all ordinary food, and release the invalid from restraint in diet.

A Word to Females.

There are two periods, especially in Woman's life, which require for safe passage, judgment and attention. Irregularity is apt at those critical times to take place, and to lay the foundation of future disease. These Pills, safe in action, and effective in result, should be taken at certain periods, and the issue will be marvellous both to the young and the middle aged. They prevent nervousness, hysterics, dropsy, and a host of similar serious disorders, by expelling all impurities from the system, therefore none should ever be without them.

Coughs, Colds, and Asthmas.

No medicine will cure colds so quickly as these Pills, when of long duration or settled on the chest or even though it has assumed the first stage of asthma, they may be relied on as a certain and never failing cure, particularly if the Ointment be well rubbed into the chest and throat night and morning. If this catch the eye of any asthmatical person so bad as even not able to lie down in bed, let him well use these two preparations for only a week, and the result will be marvellous.

Blood to the Head—Diseases of the Heart

More persons die suddenly from diseases of the heart than the unlearned suppose: in such complaints, the bowels should always be kept well open, as also where there is a tendency of blood to the head. These celebrated Pills purify the blood in an extraordinary manner, and should be taken in copious doses when such symptoms occur, taking care not to overload the stomach; by this means all danger is quickly averted.

Children's Complaints.

It is not generally known, but such is the fact, that children require medicine oftener than their parents. Three-fourths of the children die before they attain the age of eight years. Let mothers, then, be wise and give to their children small doses of these invaluable Pills once or twice every week, in such quantity as may act gently upon the system twice in the twenty-four hours. For infants, a Pill may be crushed and given as a powder in a little water. The gross humors that are constantly floating about in the blood of children, the forerunners of so many complaints, will thus be expelled, and the lives of thousands saved and preserved to their parents.

Holloway's Pills are the best remedy known in the world for the following diseases:

Ague	Dropsy	Inflammation	Sore Throat
Asthma	Dysentery	Jaundice	Stone and Gravel
Billious Complaints	Erysipelas	Liver Complaints	Secondary Symptoms
Blotches on the Skin	Female Irregularities	Lumbago	Tic-Douloureux
Bowel Complaints	Fevers of all kinds	Piles	Tumours
Colics	Fits	Rheumatism	Ulcers
Constipation of Bowels	Gout	Retention of Urine	Venereal Affections
Consumption	Head-ache	Scrofula, or King's Evil	Weakness, from whatever cause
Debility	Indigestion	Worms of all kinds	

☞ There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each Box. n14
